Description

Insight Development Grants support research in its initial stages. The grants enable the development of new research questions, as well as experimentation with new methods, theoretical approaches and/or ideas. Funding is provided for short-term research development projects of up to two years, proposed by individuals or teams. Insight Development Grants foster research in its early stages, but are not intended to support large-scale initiatives. SSHRC welcomes applications involving [Aboriginal research](#) [4], as well as those involving [research-creation](#) [5].

Within the Insight Development Grants funding opportunity, funding is available for two distinct categories of scholars: [emerging scholars](#) [6] and [established scholars](#) [6].

Emerging Scholars: Funding supports high quality research projects to develop new research questions and/or approaches. Such projects may build on and further the applicant's (or team's) graduate work and/or represent a continuation of their overall research trajectory.

Established Scholars: Funding provides support to explore new research questions and/or approaches that are distinct from the applicant's previous/ongoing research. Research projects should be clearly delimited and in the early stages of the research process. Insight Development Grant funding is not intended to support ongoing research for established scholars.

Eligibility

Faculty and Postdoctoral Fellows (see [Eligibility Guidelines](#) [1])

Researchers who maintain an affiliation with a Canadian postsecondary institution, but whose primary affiliation is with a non-Canadian postsecondary institution, are not eligible for [applicant](#)
