Description

SSHRC Postdoctoral Fellowships support the most promising Canadian new scholars in the social sciences and humanities, and assist them in establishing a research base at an important time in their research careers.

SSHRC Postdoctoral Fellowship proposals are expected to respond to the objectives of the Talent [1] program.

SSHRC Postdoctoral Fellowships provide stipendiary support to recent PhD graduates who are:

- undertaking original research;
- publishing research findings;
- developing and expanding personal research networks;
- broadening their teaching experience;
- preparing for research-intensive careers within and beyond academia; and
- preparing to become competitive in national research grant competitions.

Fellowships will normally be awarded to candidates affiliated with a university other than that which awarded the PhD. SSHRC Postdoctoral Fellowship awards are tenable at Canadian or foreign universities and research institutions.

SSHRC welcomes applications involving Aboriginal research [2], as well as those involving research-creation [3].
