Description

The [U of G IT Strategy](#) intends to re-imagine how the U of G community works, teaches, and learns, and how we can drive technological innovation to improve these critical functions.

The Research Support pillar invites faculty researchers to participate in workshops to explore: What are your pain points related to teaching, **research**, administration, or other? Do you have ideas to make things better? We need to hear from you!

The U of G IT Strategy is holding two faculty-specific workshops to gain essential input from faculty about current challenges and opportunities to improve the user experience in the areas of teaching, learning, and **research**. The workshop format is very engaging and fast-paced, and the workshops will be taking place on the following dates/times – **there is only need to attend one session**:

- Wed. Feb. 5 from 2 to 4 p.m., Peter Clark Hall (001) UC basement
- Thurs. Feb. 13 from 10 a.m. to 12 p.m., McLaughlin Library, Robert Whitelaw Room (246A)

[Please respond to this survey to indicate your attendance.](#) Coffee and snacks will be served.
