### Description

Please join the exciting and informative session hosted by Agri-food Data Canada (ADC) at the University of Guelph. Discover how ADC is helping to make agri-food data more FAIR (Findable, Accessible, Interoperable, and Reusable) by joining them on a tour of the Semantic Engine tools, Ontario Dairy and Beef Research Centre data portals, and ways to find University of Guelph agri-food data sources using Canadian data platforms.

If your work intersects with agri-food research at the University of Guelph, this session is for you!
