

Webinar: Bayer Grants4Ag Funding Opportunity

Date	Location	Notes
Monday July 26, 2021 9:00am to 10:00am	Online	Please register online via Halo's website .
Monday July 26, 2021 1:00pm to 2:00pm		
Monday July 26, 2021 9:00pm to 10:00pm		

Description

First introduced in 2015, the Bayer Grants4Ag initiative has evolved to offer researchers financial and scientific support to develop ideas for novel solutions across all research and development areas in the Division of Crop Science. Awarded projects will be paired with an internal Bayer Scientist for project guidance. Please see this [Research Alert](#) for More information on the program priorities.

Join scientists from one of the world's leading innovators in crop science and pest control, Bayer Crop Science, for an interactive webinar.

Bayer scientists will be discussing two new funding opportunities on Halo as part of their Grants4Ag program. Bayer primarily identifies large-scale and long-term collaborations through this annual initiative.

Following a presentation, the Bayer team will answer questions directly from researchers during a live Q&A.

Relevant areas of expertise:

- Plant & Crop Science
- Chemistry & Biochemistry
- Data Science

Here's what you'll learn:

- Bayer's preferred approaches and how to make your proposal stand out
- How Bayer's Grants4Ag program is different from other funding opportunities
- How Bayer can help bring your innovations to the world
