Program

Nutrition Research Funding Program

For More Information

Please visit the [program's website](#) [1] for

- [Program guidelines](#) [2]
- [Letter of Intent Application form](#) [3]

Description

The objective of the Funding Program is to gain a better understanding of the specific role of dairy products in attaining and maintaining optimum health. DFC considers Funding Applications that have nutritional and health implications for Canadian dairy products and are relevant to Canadian dairy farmers, and has a special interest in research that will bring innovative and competitive dairy products with health benefits to market.

Special Note: Under an agreement reached between the Natural Sciences and Engineering Research Council of Canada (NSERC) and DFC, proposals selected by DFC in its annual Nutrition Research Program competition could be submitted as a separate application to the NSERC Collaborative Research and Development (CRD) Grants program. Please consult the [program guidelines](#) [2] for more details.

Priority Areas for Funding:

- Cardiovascular Health
- Metabolic Health
- Healthy Weight and Body Composition
- Optimal Nutrition and Function
- Sustainability

Eligibility

Investigators proposing to undertake studies relevant to human health and who hold an academic appointment in a Canadian university. * A researcher cannot hold two grants for studies simultaneously at DFC for which he/she is the Principal Investigator.

Students and trainees are not eligible to act as co-investigators. Postdoctoral fellows may act as a co-investigator but will not be eligible to draw funds from the grant in such a case.

Maximum Project Value

On average, \$50,000 annually. For projects that require more than \$70,000 per year from DFC, it is strongly recommended that a co-funding source be identified.

Indirect Costs

0%

Eligible Costs

- Salaries (research personnel (excluding PI and Co-PI), technicians, research trainees, post docs)
- Essential Equipment over \$10,000
- Supplies
- Travel (maximum of \$2,000 per year or 10% of Grant)

Project Duration

Maximum 2 years

Deadlines

If College-level review is required, your College will communicate its earlier internal deadlines.

Type	Date	Notes
Internal Deadline	Tuesday, November 24, 2015 - 4:30pm	Please submit your Letter of Intent, along with an OR-5 Form to research.services@uoguelph.ca [4]
External Deadline	Tuesday, December 1, 2015 - 11:45pm	For new Funding Applications,

Type	Date	Notes
		a Letters of Intent must be received by the DFC before the external deadline.

How to Apply

****Researcher will be responsible for submitting the Letter of Intent to DFC in the manner outlined in the Program Guidelines.****

Please Note: The same investigator can submit more than one LOI. Regardless of how many Letters of Intent are approved, only one Grant Proposal per Principal Investigator can be submitted for final review. The same researcher can be co-investigator on no more than one additional Grant. Switching the names of Principal Investigator and co-investigators is not appropriate and may exclude the Letter of Intent or the entire Grant Proposal from further consideration.

Only Letters of Intent considered to have scientific merit and fit within current research priorities and funding capabilities of DFC, will be invited to complete a detailed Grant Proposal. A final decision concerning the funding of the full Grant Proposal should be known by **September 2016**.
