Description

***Urgent**: Potential applicants must register by email to Jennifer Hicks (hicks2@ualberta.ca) by Friday, July 17, 2015. Upon registration, applicants will receive the application form**

The Canadian Glycomics Network (GlycoNet) is a Network of Centres of Excellence that focuses on the role of glycans (carbohydrates) in health. Areas of focus are therapeutic proteins & vaccines, antimicrobials and chronic disease, in particular diabetes & obesity, genetic diseases involving errors in glycan metabolism, and cancer. Additional information about Network research can be found at www.glyconet.ca.

In this Request for Proposals we are seeking to fund exploratory projects the successful completion of which would provide preliminary data to support other funding applications either to GlycoNet, the Canadian Institutes of Health Research or a private disease-specific foundation.

Program

Projects should be aligned with one of the GlycoNet research themes (see glyconet.ca) and be targeted to a specific disease. They will be of an applied nature so that after additional funding through other means, the outcomes could lead to novel treatments for disease. Projects should also: involve the training of Highly Qualified Personnel; be multidisciplinary involving two or more research groups will be given preference.

Projects should not: Concern development or performance of a high-throughput screen; Concern development of synthetic methodology; Concern basic biochemistry or biology with no tangible translational outcome.

Eligibility

This opportunity is open only to individuals eligible to hold Tri-Council funds; i.e., the Canadian Institutes of Health Research (CIHR), the Natural Sciences and Engineering Research Council of Canada (NSERC) or the Social Sciences and Humanities Research Council of Canada (SSHRC).

Individuals serving as a Project Leader on another GlycoNet-funded project or receiving more than $75,000 a year from GlycoNet are not eligible.

An individual may serve as the Project Leader on only one Catalyst Grant application and may not be involved in more than two Catalyst Grant applications.

Funding Availability

$450,000

Maximum Project Value

$75,000

Indirect Costs

0%

Project Duration

All projects should be completed within 12 months; longer time periods may be requested and will be considered on a case-by-case basis.

Special Notes

Although not required, partner funding would be an asset.

Deadlines

If College-level review is required, your College will communicate its earlier internal deadlines.

Type	Date	Notes
Internal Deadline	Friday, August 7, 2015 - 4:30pm	to Office of Research Services: Please submit your application/proposal, along with

Type	Date	Notes
		an OR-5 Form to research.services@uoguelph.ca [2] by Friday, August 7, 2015. No OR-5 form is required at the time of registration.
External Deadline	Sunday, August 16, 2015 - 3:00am	to sponsor: 3a.m. EST Sunday, August 16,

How to Apply

Potential applicants must register by email to Jennifer Hicks (hicks2@ualberta.ca) by Friday, July 17, 2015. Upon registration, applicants will receive the application form.
