Awards for Science Promotion – Call for Nominations

For More Information

Please visit NSERC's website for further information on this [Program](#) [1].

Description

NSERC awards for Science Promotion focus on people and groups that are inspirational in the way that they promote science to the general public, and are an opportunity for Canada's science community to recognize, support and encourage outstanding science promoters. Anyone with direct knowledge of an individual's or group's contribution to science and engineering promotion may nominate that candidate. Nominators may be colleagues or people who have benefited from the nominee's contributions, such as teachers, parents, community members or administrators.

Eligibility

An individual, registered non-profit organization, postsecondary institution, non-federal museum, science centre or company within Canada may be nominated for the award. Nominees will have made a successful and sustained effort to encourage public interest, and understanding of, the natural sciences and engineering (including math and technology) outside the formal education system. Posthumous or self-nominations will not be accepted.

Funding Availability

The individual recipient will receive an award of \$10,000. The winning group will be awarded \$25,000 to further promotion activities.

Deadlines

If College-level review is required, your College will communicate its earlier internal
