Description

NSERC's PromoScience Program offers financial support for organizations working with young Canadians to promote an understanding of science and engineering (including mathematics and technology). Through PromoScience, NSERC may award up to \$2.75 million each year. Organizations may request funds for up to three years at a time.

PromoScience supports hands-on learning experiences for young students and their science teachers. Grants may be used to cover improvements to program content or delivery, as well as for new programs and activities. Grants can also be used to cover operational costs such as salaries, travel, postage, materials and supplies, provided that they relate to the promotion of science and engineering. Grants may not be used to support research or program evaluations.

Note: In addition to continuing to accept applications that promote the natural sciences and engineering to Canada's young people in general, NSERC is issuing a targeted call for applications that focus on girls and/or Aboriginal youth groups that are traditionally under-represented in scientific and engineering careers and expects to support an increased percentage of applications in this area.

Eligibility

Organizations can apply for research-related activities, and in the context of PromoScience, they may also apply for outreach, teaching and instructional activities.

Funding Availability

NSERC's contribution is generally up to one-third of a program's funding. In past competitions, the average grant ranged from \$15,000 to \$25,000 a year.

Indirect Costs

0%

Special Notes

Applicants with past or current PromoScience funding must include a one-page summary report (as an additional page) See guidelines (link provided below) for list of items to include.

Deadlines

If College-level review is required, your College will communicate its earlier internal deadlines.

Type	Date	Notes
Internal Deadline	Tuesday, September 8, 2015 - 4:30pm	Applicant submits complete application including the PromoScience application summary form, support letters, and signed OR-5 form to: research.services@uoguelph.ca . [4]
External Deadline	Tuesday, September 15, 2015 - 8:00pm	Applicant submits electronically via the Secure Submissions for NSERC's Innovative Collaborations and Science Promotion Programs [5]: in Portable Document Format (PDF) as a single document.
