

Rare Diseases: Models and Mechanisms Network

Sponsor

Canadian “Rare Diseases: Models & Mechanisms” Network (RDMM)

For More Information

For more information, please go to the [sponsor](#) [1] website.

Description

On behalf of the Clinical Advisory Committee of the Rare Diseases: Models and Mechanisms Network, we would like to invite applications from clinicians and clinician scientists who have discovered novel genes in patients with rare diseases and wish to collaborate with a model organism investigator who is able to carry out functional analysis on an orthologous gene in a model system.

Eligibility

Faculty affiliated with an eligible Canadian institution.

Funding Availability

Maximum \$25,000 will be awarded for each Catalyst grant.

Indirect Costs

0%

Special Notes

The Network has no formal requirement for partnering. Applications are welcomed from pre-existing or newly formed teams of clinicians and model organism investigators who share an interest in pursuing a disease gene discovery.

How to Apply

A [Connection Application](#) [2] may be emailed to the RDMM Network info@rare-diseases-catalyst-network.ca [3].
