- [CIIRD R&D Program Handbook](#) [1]

Description

The Canada-Israel Industrial R&D Foundation (CIIRDF) promotes, stimulates and invests in collaborative research and development between for-profit companies in Canada and Israel, with a focus on the commercialization of new technologies.

This Call invites bilateral R&D projects that facilitate the co-development of a new technology; the validation of an emerging technology; or adaptation of an existing technology for a new market. All R&D must take place in Canada and Israel. Universities are eligible to participate in R&D projects as subcontractors or consultants.

CIIRDF welcomes R&D project proposals with a non-defence application in all technology sectors, however special consideration will be given to projects in:

- Aerospace
- Agriculture and Processed Foods
- Financial Services
- Information, Communication Technologies
- Life Sciences
- Oil and Gas
- Sustainable Technologies

Funding Availability

CIIRDF will award Canada-Israel R&D teams with financial contributions up to 50 percent of the eligible project costs (a maximum of CDN\$ 800,000 per project). Canadian universities participating in the CIIRDF-funded projects may also apply to the NSERC Collaborative R&D (CRD) program as part of the funding application to CIIRDF through a strategic initiative to bring together Canadian companies, academic researchers and their counterparts from Israel.

Indirect Costs

40% of sub-award/contractor amount to University of Guelph.

Special Notes

The first step of the application process is to complete a [project summary outline](#) [2] and submit it to CIIRDF for pre-proposal evaluation and feedback. CIIRDF will review this outline and advise companies (in writing) how best to proceed towards the development of a full R&D project proposal.

Deadlines

If College-level review is required, your College will communicate its earlier internal deadlines.

Type	Date	Notes
Internal Deadline	Tuesday, July 26, 2016 - 4:30pm	<p>To Office of Research Services: Please submit a copy of your industrial partner's full application/proposal, along with an OR-5 Form, to research.services@uoguelph.ca [3]</p> <p>Please allow for a minimum two-week review of the NSERC CRD application by the Office of Research Services.</p> <p>Please contact Katie Meyer-Beck (kmeyerbe@uoguelph.ca [4]) in advance if you plan to apply for an NSERC CRD grant.</p>
External Deadline	Tuesday, August 2, 2016 - 11:45pm
