Description

The specific objectives of this funding opportunity are:

1. To support research to:
 - Identify sub-population groups where children and youth, and/or women of reproductive age are under or un-immunized in Canada and characterize their socio demographic status.
 - Characterize the extent of under and un-immunization among identified sub-populations.
 - Determine the systemic barriers negatively impacting immunization access and uptake.
2. Inform solutions to improve methods for ongoing monitoring of immunization coverage of under- and un-immunized populations in Canada.
3. Facilitate the consideration of new evidence in decision-making to improve vaccination access and uptake.

Eligibility

Faculty;

- The team must involve, **at least one** [knowledge user](#) [2] (either a public health authority, health professional, or [community leader](#) [3]) as a **Principal Knowledge User**.
