Description

The New Scientific Collaboration Support Program, financed by the France-Canada Research Fund (FCRF),

aims to accomplish the following objectives:

- Support developing new expert partnerships between France and Canada,
- promote the advancement of research and innovation,
- prepare and structure scientific cooperation between the two countries,
- promote researcher mobility, particularly for young researchers, and
- provide research training for young researchers.

This program provides financing for new scientific projects jointly developed by French and Canadian teams **that have never worked together before**.

Eligibility

Submitted proposals must be joint projects between a French establishment (all universities, Grandes Écoles, and research organizations are eligible) and one of the 20 FCRF's Canadian member universities

Funding Availability

The financing is awarded to two-year projects in amounts ranging from \$8,000 to \$15,000, according to the needs expressed by the principal investigators.
