Program

Huawei Innovation research program (HIRP)

For More Information

For additional information please visit the program's websites at: [Huawei Innovation Research Program](#) [1]

Description

Huawei Canada is invested in working with world-class researchers in the communication technology, computer science, engineering, and other related fields.

Eligibility

Each applicant must be a full-time faculty member (lecturer, assistant professor, associate professor or full professor). Huawei will not accept applications from professors on behalf of students, post-docs, or other ineligible candidates. Joint research proposals are not accepted.

Maximum Project Value

Up to \$90,000 if requesting funding only from Huawei. If you wish to leverage Huawei funding to eligible government funded research programs in Canada (e.g. NSERC) you may only apply to Huawei for a maximum of \$60,000.

Indirect Costs

40%

Project Duration

Huawei accepts 1-year proposals for the HIRP program. In some cases, especially outstanding proposals that last 2 years are also accepted.

Special Notes

HIRP program is looking for proposals in [23 research subjects](#) [2] across six research themes, including:

- Big Data
- Future Networks
- Media Technology
- Computing Technology
- Compression Technology
- Wireless Communication Technology

Information on the 23 Research Subject Areas can be found here: [Subject Areas](#) [2]

The HIRP evaluation criteria include:

- Innovation of research idea
- Feasibility of technical approach
- Value of the outcome
- Duration of the research plan

Deadlines

If College-level review is required, your College will communicate its earlier internal deadlines.
