Description

NSERC is seeking nominations of research teams for the Brockhouse Canada Prize for Interdisciplinary Research in Science and Engineering. This prize recognizes outstanding Canadian teams of researchers from different disciplines who have combined their expertise to produce achievements of outstanding international significance in the natural sciences and engineering in the last six years.

Eligibility

Candidates may be nominated by any individual or group; however, the nominators must be Canadian citizens or permanent residents of Canada. Self-nominators will not be accepted. A team may be nominated for the NSERC Brockhouse Prize and other major NSERC prizes in the same year, but can receive only one such prize in a given year.

Funding Availability

The prize is accompanied by a team research grant of up to \$250,000, which may be used to support the direct costs of university-based research and/or the enhancement of research facilities. The grant may be distributed in one lump sum or up to five instalments, depending on the needs of the recipients.

Deadlines

If College-level review is required, your College will communicate its earlier internal
