Description

SSHRC Impact Awards are designed to build on and sustain Canada's research-based knowledge culture in the social sciences and humanities. The awards recognize outstanding researchers and celebrate their achievements in research, research training, knowledge mobilization and outreach activities funded partially or completely by SSHRC. Award funds are to be used for activities that promote and extend the work being honoured. In recognition of the crucial role that postsecondary institutions play as researchers' knowledge mobilization partners, a minimum of 10 per cent of each award must to be used to promote the research achievements of the recipient.

Each institution may submit only one nomination for each award in a given year. **The Office of Research Services will hold a competition for four of the SSHRC Impact Awards:**

- **Gold Medal (\$100,000)**, SSHRC's highest research honour, is awarded to an individual whose sustained leadership, dedication and originality of thought have inspired students and colleagues alike. The recipient's achievements in research must have significantly advanced understanding in their research fields in the social sciences and humanities. The exceptional quality of their research, the impact of their work and their ongoing efforts to share the results of this work must have greatly enriched Canadian society and contributed to social, cultural, economic and intellectual life in Canada and/or internationally. - **Insight Award (\$50,000)** recognizes outstanding achievement arising from a research project funded partially or completely by SSHRC. It is given to an individual or team whose project has resulted in significant contribution to knowledge and understanding about people, societies and the world. The project's research outcomes must have led to demonstrable impact within and/or beyond the academic community. [Read more, including selection criteria of the Insight Award](#) [3].
- **Connection Award (\$50,000)** recognizes an outstanding SSHRC-funded initiative to facilitate the flow and exchange of research knowledge within and/or beyond the

academic community. It is given to an individual or team whose project has engaged the campus and/or wider community, and has generated intellectual, cultural, social and/or economic impacts. In the case of a team project, the nominee must be the applicant / project director for the initiative and, if successful, will receive the award on behalf of the team. - **Partnership Award (\$50,000)** recognizes a SSHRC-funded formal partnership for its outstanding achievement in advancing research, research training or knowledge mobilization, or developing a new partnership approach to research and/or related activities. It is awarded to a formal partnership that, through mutual co-operation and shared intellectual leadership and resources, has demonstrated impact and influence within and/or beyond the social sciences and humanities research community. For the Partnership Award, the nominee must be the project director. If successful, this person will receive the award on behalf of the partnership.
